

Walk	Length	Round trip duration	Difficulty	Where does it take me?
Rainforest Walk	1.5km	45 minutes	Moderate	Starts from the creek track which is entered from the path between Tamarind and Quandong on the lower part of the main lawn area. It has about 10 minutes of steep track. It's best enjoyed by following the direction of the arrows on the map above.
Boundary Circuit	4.5km	90 minutes	Moderate	This walk begins at the same point as the Rainforest Walk and rejoins that walk as it returns to the creek near the glow worms. It too is best enjoyed following the counter-clockwise arrows on the map.
Lookout Hike	4km	90 minutes	Strenuous	Starts from the creek track which is entered from the path between Tamarind and Quandong on the lower part of the main lawn area. As the only way to a lookout is up, this is a steep hike ascending approximately 250 metres.
Rockhopper's Ramble	1.5km	45 minutes	Easy	The word "ramble" says it all. It also starts from the creek track which is entered from the path between Tamarind and Quandong the lower part of the main lawn area and branches off the Rainforest Walk just before the creek bridge and follows the creek all the way to the entry gates and back up the roadway. Or follow the roadway down to the gates and walk back alongside the creek.
